The image shows an energy label for a refrigerator. At the top left is the TechnoChef logo, which consists of a chef's hat icon above the words 'TECHNO' and 'CHEF' in a stylized font. To the right of the logo is the European Union flag and the word 'ENERGY' in a bold, blue font. Below the flag and 'ENERGY' is the text 'FOR CAR REFRIGERATION' and a QR code. The model number 'G-LSG65B' is printed below the QR code. The main part of the label is a vertical bar with seven colored segments representing energy efficiency classes: A (green), B (light green), C (yellow-green), D (yellow), E (orange), F (red-orange), and G (red). A black arrow points to the 'C' class. Below the bar, the energy consumption is listed as '1625 kWh/annum'. At the bottom left, there is an icon of a refrigerator and the text '1.12 m²'. At the bottom right, there is a thermometer icon and the text '7°C' and '1°C'. A large, semi-transparent watermark 'TECHNOCHEF.IT' is overlaid across the center of the label. In the bottom right corner, there is a small vertical text '© 2024/2025'.
